### For Hotels

**If it says Stay to Play you must stay with the housing company for the event. We will secure blocks but sometimes, you can get better rooms more suitable for your family through the competition stay to play block too. If it says we will get a block, that simply means we will grab blocks so our families can stay at hotels together is they choose to.**

**We will send details about hotels as they come for each event.**

### For the End of Season Events

**We will make a determination for our teams that best fits the team and the families at our gym. If a team receives a bid to an event, it does not guarantee we will attend. Our industry has been ever evolving for the last decade, we have learned the best way to handle this is to keep our options open. We also try to make sure our youngest teams aren't at a parallel competing level to our oldest teams. We try to have balance through the entire program and that is why we like to keep our options open for the end of the season.**
